ECHELON MEDICAL CAPITAL DELIVERS

Years ago, the business began with a simple notion: Creating a service where both the doctor and financing business sat on the same side of the table with aligned interests. Echelon was born by veteran finance and legal experts who, through firsthand experience in working with ambulatory surgical centers (ASCs) and surgeons, realized there were better and more flexible options for medical providers on a nonrecourse basis. Shortly thereafter, Turbo Advance™ was introduced – a breakthrough for the industry! Turbo Advance™ puts control back in the hands of the business owners.

ECHELON OFFERS THE MOST FLEXIBLE OPTIONS TO HELP YOUR PRACTICE THRIVE!

MEDICAL LIENS - LOPs

With a partner like Echelon, LOPs and Medical Liens can be turned into gold with very little risk or hassle. We offer solutions that make an immediate positive impact!

NO-FAULT INSURANCE RECEIVABLES

Depending upon the state where your practice is located, you may be providing medical care for “No Fault” insurance cases, but find yourself waiting too long to receive reimbursement benefits. With Echelon, the challenges of receiving payments during treatment, or even after insurance has stopped reimbursing on a case, can disappear and rock-solid cash flows appear.

HEALTH INSURANCE RECEIVABLES

This is a classic financing opportunity for practices to maximize cash flow faster than waiting for adjudicated claims reimbursement. Whether it's during a strategic growth spurt, or for other business acquisitions, Echelon makes covering costs of overhead less of a challenge. Echelon becomes an essential tool in managing cash flow with near immediate cash to you once services are rendered.
